

EVON CHIANG
SENIOR EXEC (ADMIN)
LEARNING CONSULTANT

Evon Chiang has worked in the field of adventure-based experiential education since 1997. She is a quantity surveyor by training; but a year after graduation, she turned her back on her much invested training and began to venture into her long loved passion of experiential learning.

She came on board Team Nu Quest in late December 2004 as a Senior Learning Consultant and Administrator. Her responsibilities include long-range planning and financial management of Nu Quest, as well as the instructional design and delivery, group facilitation, and program supervision of field and classroom Action Learning corporate training programs.

She has designed programs, facilitated groups, and facilitated programs in team building, team skills and self-facilitation for continuous improvement.
